Applicant is

Broker - Licensed Waste Processor

Did you self generate waste?

Yes

What process generated the waste and how much?

Removal of sealed sources from installed facility equipment for disposal, 1.4 ft³, 4.3 mCi.

Generator Type

Industrial
Academic/Research
Medical
Utility
Government

Is waste from a "small quantity generator"?

Yes

Multiple Choice

This Fiscal Year

Waste Volume (Cubic Feet)

2000

Waste Radioactivity (Curies)

700

Waste Classification

Class A
Class B
Class C

Waste Form

Stable
Unstable

Does the proposed waste consist solely of sealed sources?

No

Compact and/or unaffiliated state, territory, possession, or district of the United States where the waste was generated (please list)

All states and U.S. Territories except Texas and Vermont.

Current Location Of Waste

Some of the waste to be imported during the period of the proposed importation agreement is currently located at the Alaron Nuclear Services facility, 2138 State Route 18, Wampum, PA, 16157. The remainder of the potential waste to be imported is located in various broker and generator facilities in the states and U.S. Territories described above from which the waste will be delivered to the Alaron Nuclear Services facility in Wampum, PA for processing during the period of the proposed importation agreement before importation for disposal, or will be generated at generator facilities in the states and U.S. Territories described above and delivered to the Alaron Nuclear Services facility in Wampum, PA for processing during the period of the proposed importation agreement before importation for disposal.

Waste Description

Encapsulated sealed sources, dewatered ion exchange resin, and dry active waste (consisting of paper, plastic, wood, metal, cloth, textiles, rubber, foil, debris, rubble, equipment, dry filters, vinyl, personal protective equipment, concrete, blast media, dry sludge, soil, rock, brick, glass, ceramics, etc.)

Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due report(s) with the Texas Low-Level Radioactive Waste Disposal Compact Committee?

No.

Applicable Documents #1

Empty

Does Applicant have any unresolved violation(s), complaint(s), unpaid fee(s), or past due reports associated with radioactive waste receipt, storage, handling, management, processing, or transportation pending with any other regulatory agency with jurisdiction to regulate radioactive material including, without limitation, the Texas Commission on Environmental Quality (TCEQ)?

No.

Applicable Documents #2

Empty

Applicant hereby certifies* the following:

The information provided herein is complete, accurate, and correct.

The waste proposed for importation is not waste of international origin.

The low-level radioactive waste for which this Import Application is submitted will be packaged and shipped in accordance with applicable state and federal regulations and is acceptable for disposal at the Compact Facility.

The person submitting this Import Application is authorized by the Applicant to commit Applicant to each and every obligation and condition set forth herein and in the Agreement for Importation of Non-Party Compact Waste. A copy of a written document containing such authorization must be attached to this Import Application.

Applicant has delivered to the specified disposal facility and TCEQ a copy of this Application for Importation of Compact Waste (along with any supplement or amendment thereto).
